To reserve a plot space, please complete this form and contact a trustee or the Secretary at the address above. Each plot must have a curb or foundation and adhere to the Plot Foundation/Curbing Guidelines below. Each plot must be of the correct dimensions and must be identified by name and location using the grid map letters and numbers. A plot map can be made available or you can contact the Secretary for help in locating and identifying a plot location on the map grid. Please note that the reserved space does not require a temporary marker or permanent headstone, however, please note that each grave must have a temporary marker at the time of burial and must have a permanent headstone installed within twelve (12) months from the date of burial. Please see Basic Policies below from the adopted Clark Cemetery Association By-Laws.

Note: The following rules were adopted in the By-Laws, accepted March 21, 2011 and published 2012 and apply equally to plot space and new grave openings. See Foundation/Curbing Diagram below.

Curbs to be no less than six (6) inches wide and no more than eighteen (18) wide on the west side of the plot and no higher than two (2) inches above the ground.
